Re: Repaving of Route 6

For Immediate Release to the Press,

Although this is a State Repaving Project, we want to be sure our local businesses and our residents are aware of the project:

Walsh & Kelly will begin repaving Route 6 from Union Street (west of County Line Road in Hobart) to Scottsdale Street (near Menards). Residents and visitors to Portage should expect lane closures and delays. Please be safe and obey all posted speed limits in the construction zone. Portage Police will be patrolling this area carefully in an effort to keep our construction workers safe.

The project is planned to begin with the milling of the road on Monday, June 10. Paving is projected to begin on Wednesday, June 12; and the estimated date of completion is June 20.

Thank you,

John M. Cannon, Mayor
